

Course 102 - Getting the Most from Your Digital Camera - Primer.

Location: Wildwood Park - Olewine Nature Center, Harrisburg, PA / www.wildwoodlake.org/_717.221.0292

Program length: 5 hours

Program start time: 10AM - 3PM

Registration

Wildwood Registration form: Download form at www.wildwoodlake.org

This one day hands-on workshop will get you up and running fast with the skills you need to get the most from your camera. We'll take you out of "automatic," but won't overload you with too much detail. This 5-hour investment in your digital SLR will pay dividends over and over as you grow with your camera system. This course is guaranteed to improve your pictures!

Topics covered:

- Camera settings for creative control
- Aperture (*f*-stop)
- Shutter speeds
- Focus & autofocus
- Focal length
- Depth of field
- White balance
- Basic composition techniques

You'll participate in hands-on demonstrations for an in-depth understanding of each concept. By the end of the day, you'll be ready to conquer challenging lighting, ensure your colors are spot on, and understand how your lens choice affects your final image.

Prerequisites: This class is open to users of camera with interchangeable lenses (DSLR, DSLR mirrorless, and Four-Thirds). This class is not for point and shoot cameras. No previous experience required.

Note: Slide presentations are copyrighted and cannot be photographed using electronic devices.

What to bring:

- | | |
|---|--|
| <input type="checkbox"/> Camera | <input type="checkbox"/> Notebook and pen |
| <input type="checkbox"/> Fully charged battery or two | <input type="checkbox"/> Camera manual |
| <input type="checkbox"/> Memory cards | <input type="checkbox"/> Lunch and drinks. |
| <input type="checkbox"/> One or two lenses | |
